

## Information for File #2005-975-KJU

**Applicant**            Roseau County Highway Department

**Corps Contact**            Kelly Urbanek

**Address**                    10867 East Gull Lake Drive NW, Brainerd, MN 56401

**E-Mail**                    Kelly.J.UrbaneK@usace.army.mil

**Phone**                    218-444-6381

**Primary County**            Roseau

**Section**                    25, 26, 27, 34

**Township**                    163N

**Range**                    38W

**Information Complete On :** March 4, 2005

**Posting Expires On:**            April 1, 2005

**Authorization Type**            Letter of Permission (LOP D)

### PROJECT DESCRIPTION AND PURPOSE:

The project will involve reconstruction of approximately 4 miles of County State Aid Highway (CSAH) 13 from Trunk Highway (TH) 11 to County Road 137. The project purpose is to upgrade the road to meet current design and safety standards. The current roadway includes a substandard roadway of 11' width and 2' shoulders. The project will widen the roadway to 12' driving lanes and roadway shoulders to 4-6 feet and flatten the inslopes to 4:1 providing for a 9 ton roadway corridor.

### NAME, AREA AND TYPES OF WATERS (INCLUDING WETLANDS) SUBJECT TO LOSS:

The road reconstruction will impact a total of 0.60 acres of wetlands through the placement of fill in 7 wetland locations. Four of the impacted wetlands (0.34) are wet meadows (Type 2) or shrub-carr with sedge meadow communities (Type 2/6). Three are forested (evergreen or hardwood) (PF01/04 Type 7) wetland communities (0.263). The project site is in Sections 25, 26, 27 and 34, T. 163N., R., 38W, Roseau County, Minnesota. Approximate decimal degrees for this site begin at Latitude 48.5207 and Longitude 95.3257 and end at Latitude 48.5545 and Longitude 95.2745.

**ALTERNATIVES CONSIDERED:** The road reconstruction is along an established route so no location alternatives were considered. The no action alternative does not meet the project purpose.

**COMPENSATORY MITIGATION:** The applicant proposes compensatory mitigation through the Minnesota Board of Water and Soil Resources (BWSR) Road Replacement Program.

**Drawings:**            See attached.

PFO2B

Our LGU has informed us that only the seven wetland areas indicated on this map would be impacted by SAP 68-613-14 & SAP 68-613-15 after a visual inspection of the project site conducted in 2004.
